

CONTAINER HIRE with PADDOCK (PIT) AREA BOOKING

Container Hire Agreement

Area is generally flat and is grassed in the middle of the showground.

The pit size with container hire is 11m deep – the length of your area to be nominated with your container hire booking.

When working out your requirements, please be realistic. Space at the venue is not unlimited. Please consider that in large groups, riders will not be arriving at the same time and so work space can be used for more than one rider.

**Camping is not permitted in the paddock working area (there is limited camping in a separate allocated area – see accommodation for bookings). There is no water or power supply to paddock sites.

**Please remember that there is no vehicle access into the paddock from end of machine examination to the end of Day 3 when the last rider is finished.

Your container will be placed at the side of your pit area opposite to the direction of the rider (eg. If the rider is coming from the right, your container will be placed forward opening to the left of your pit area. If you hire 2 containers then one will be placed at each end of your pit area. If this does not suit, please fill out comments below.

Containers cannot be marked with paint or any form of permanent marker.

Containers must be clean and free of any rubbish including swept out at the end of hire.
